A250 PL/ TL and A450 PL/ TL are specially designed IR Pyrometers of A Series family for non contact temperature measurement in demanding industrial environments. The Pyrometers are highly accurate and compact by nature with stainless steel housing to provide high operational safety for harsh industrial environments. The Pyrometers are designed for high temperature applications between 210°C….3000°C.

The parameters like Emissivity, Analog Output, Sub Range, Response Time and Peak Picker etc can be preset ex-works or adjustable via Software. The Pyrometer provided with bluetooth V2.0 for communication between pyrometer & Android mobile, RS-232 & 485 for communication between pyrometer & PC software Infrasoft.

### Features
- Wide temperature ranges from 210°C to 3000°C.
- Spectral Range 1.0 µm….1.6 µm
- Fast response time within milliseconds
- Analog output options available like 0...20mA, 4...20mA and 0...10V
- Laser or Through the Lens view finder sighting options
- Bluetooth V2.0 and RS-232/RS-485 Serial interface
- User friendly PC software for communication
- Small Spot Sizes
- Accessories for mounting and cooling options

### Standard Scope of Supply
- Pyrometer with Laser pilot light(PL)/Through the Lens(TL) sighting(user can select while ordering)
- Analog output 4...20mA, 0...20mA, 0...10V
- Bluetooth V2.0
- Digital Interface RS-232 / RS-485(user selectable)
- 5 mtr long connection cable with connector
- 1.5 mtr. Communication Cable
- Calibration certificate, Software & Operation manual

### Optional
- Mechanical & Electrical Accessories
- Extra Cable Lengths
- Single Analog Input 4...20mA for emissivity adjustment or background ambient compensation (to be specified while ordering)

### Applications
- Induction Heating
- Casting
- Annealing
- Welding
- Forging
- Sintering
- Melting
- Rolling mills
- Hardening
AST Infrasoft

AST “Infrasoft” software is under standard scope of supply. It offers possibilities of connecting three pyrometers simultaneously for parameter setting, view real-time graph, offline graph and to evaluate measuring data. Communication between the pyrometer and the software is implemented via a cable connected between the pyrometer and the PC serial port. It comes with record feature, spot size calculator and parameter settings features.

Some of the parameters adjustable via software are:
- Emissivity, Response Time,
- Clear Time (Peak Picker),
- Analog Output,
- Sub Range,
- Unit Of Temperature (°C/°F),
- Communication mode (Comm.mode).

AST Infrasmart

AST Infrasmart is an android application used to communicate a pyrometer with mobile devices. This application works via bluetooth after pairing with mobile.

APK file for this android application will be provided with device.

Number of parameters set through the application are:
- Emissivity
- Unit Of Temperature
- Sensor Type
- Response time
- Analog Output
- Sub Range
- Clear Time
- Communication Mode
**Accessories**

- **Water Cooling Jacket with Adjustable Flange**
  - PL: Reference no: 8000-02
  - TL: Reference no: 8000-06
- **Adjustable Mounting Stand**
  - Reference no: 8000-07
- **Air Purge Unit**
  - Reference no: 8000-04
- **Adjustable Mounting Support**
  - Reference no: 8000-05

**Display & Parameterizer P-120**
- Reference no: 9001-01

**Converter RS-232 ↔ RS-485**
- Reference no: 9000-03

**Power Supply Unit**
- Reference no: 9000-02

**Temperature Indicator**
- Reference no: 9000-01

---

**Pyrometer Accessories Drawings**

- **Water Cooling Jacket with Adjustable Flange PL**
  - Reference no: 8000-02
- **Water Cooling Jacket with Adjustable Flange TL**
  - Reference no: 8000-06
- **Air Purge Unit**
  - Reference no: 8000-04
- **Adjustable mounting stand**
  - Reference no: 8000-07
- **Mounting Clamp**
  - Reference no: 8000-05
